

Pixie Dust Biodegradable Glitter

THE DEMAND FOR SUSTAINABLE OPTIONS IS GROWING SO WE ARE HERE TO OFFER A GUILT-FREE GLITTER OPTION MADE FROM EUCALYPTUS. TRADITIONAL GLITTER, FOUND IN OTHER COSMETICS, IS MADE FROM TINY PIECES OF PLASTIC THAT ARE DANGEROUS TO WEAR AROUND THE EYES. PIXIE DUST SPARKLES JUST AS BRIGHT BUT HAS A SOFT LIGHTWEIGHT TEXTURE. MICROPLASTICS ARE CHEAP TO PRODUCE, RIGID AND SCRATCHY. CREATE ENCHANTING AND MEZMERIZING LOOKS WITH A GLITTER THAT COMES FROM NATURE AND RETURNS TO IT. PIXIE DUST REMOVES EASILY WITH SOAP AND WATER.

Sparkle Station Experience

Our PROFESSIONAL ARTISTS use makeup brushes to ADORN GUESTS WITH GLITTER. Guests are seated comfortably in a director's high-top chair with a wide selection of vibrant colors to choose from. Hollywood-style mirrors add a sense of glamour making each guest feel like a star. A 'Sparkle Station' is the perfect addition to any CELEBRATION! - nothing is too big or too small! Our Artists are more than just glitter applicators; they arrive dressed to dazzle in attire that matches the party's theme to create an entertaining and imersive experience.
